

22 April 2025

**Declaration of Conformity**

To whom it may concern,

Denby Stoneware is a type of ceramic pottery produced with ball clay, which Denby source locally, and when fired it is vitreous (both non-porous and non-absorbent) making it ideal as a hygienic food contact material.

All Denby Stoneware is manufactured to be suitable for safe use with food in an oven, microwave, freezer, and dishwasher. As such they comply in all respects with the requirements of Regulation (EC) No 2023/2006 on Good Manufacturing Practice for materials and articles intended to come into contact with food and Regulation (EC) 1935/2004 on materials and articles intended to come in to contact with food.

Denby Stoneware products are routinely tested to applicable standards for the release of harmful metals e.g. lead and cadmium. All Stoneware products conform to the required limits detailed in legislation.

The Denby Pottery Company Ltd of Derbyshire, England, hereby certifies that all Denby Pottery Stoneware tableware products are manufactured in the UK at the below stated address.

Signed

A handwritten signature in black ink, appearing to read "S Grant", written over a white background.
