

instant measurements of spices, oil, flour, tea, baking powder, butter, yeast, medicine, saffron, etc. Moreover, the accumulative feature allows you to accumulate the value up to 3000g (105.8 oz).

Features:

- 1.- Detachable scoop for easy cleaning.
- 2.- Measurements in weight and volume.
- 3.- Accumulative weight up to 3000g (105.8 oz).
- 4.- On-time weight up to 300g (10.58 oz).
- 5.- Gram (g) and ounce (oz) weight units.
- 6.- Tablespoon (Tbsp), teaspoon (Tsp).
- 7.- Auto power off.
- 8.- Easy to read LCD display.
- 9.- Hold function to freeze the reading on the LCD.
- 10.- Tare feature.
- 11.- Low battery indication

Specifications:

Max. 1 time measuring weight 300g / 10.58 oz

Max accumulative weight 3000g / 105.8 oz

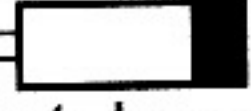

Measuring step: 0.1g / 0.005 oz

Battery: CR2032

Operation instruction:

- 1.- Use
Remove the battery insulator for first time use. Place the spoon on a horizontal surface and press the "ON/TARE" button to switch the spoon scale on. LDC will show 0.0g after full segment display. Now place the food, spices etc. on the spoon to be weighed. Press and hold the " Σ /UNIT" button for about 3 seconds to select the weight unit (g/oz).
- 2.- Measuring
There are two ways of weighing.
 - a.- Simply place the spoon on a horizontal surface. Slightly hold the end of the spoon to prevent it from tilting.
 - b.- To measure, hold the spoon steady in your hand keep it in a horizontal orientation.
- 3.- Accumulative feature
If the weight is = 0.5g (0.02 oz), press " Σ /UNIT" button to activate the accumulation feature, a " Σ " icon displays on LDC. To keep accumulating. Pour out the accumulated object first and scoop another object (the object weight should > 0.5g (0.02 oz). Press " Σ /UNIT" button again to accumulate the weight. The " Σ " icon blinks once which means the weight is accumulated. The maximum value of accumulating weight is 3000g (105.8 oz). If the accumulated weight is approximately over the maximum value (3000g or 105.8 oz). LDC displays "0-Ld". To return to the normal weighing mode, slightly press " Σ /UNIT" after the object has been poured out from the scoop (no object in The scoop). The " Σ " icon disappears on LDC.
- 4.- Measuring in wrapper
If you wish to weight the food/spices in a wrapper, press the "ON/TARE" button to manually reset to zero when the wrapper has been placed in the spoon scale. Place the food in the wrapper to measure its net weight. The LDC will show negative readings after all the items have been removed from the spoon. Press the "ON/TARE" button again to return to the normal weighing mode.
- 5.- Measuring liquids
The volume scale on spoon can be used to measure liquid volume. And there will be a 15% tolerance due to the error of human vision.
- 6.- "HOLD" function
Press the "HOLD" button to freeze the reading on the LCD. Even if you remove the food, spices, etc., the LCD will show the "frozen" weight. Press the "HOLD" button again to return to the normal weighing mode or wait for 10 seconds till the display automatically returns to the normal mode.
- 7.- Turn off
Press and hold the "ON/TARE" button for about 3 seconds to switch off the Product. If the spoon scale is not loaded within about 1 minute, thus it will switch off automatically.

Please note:

- 1.- The product is a precise instrument with the sensitivity of 0.1g/0.005 oz. Please treat it gently and avoid rough handing such as knocking the spoon against an object or dropping it.
- 2.- The maximum measuring weight (including tare) should not be over 450g (15.870 oz). This may cause irreparable damage to the product.
- 3.- The product must be placed in a horizontal position to ensure its accuracy. Furthermore, it is important to avoid any frequency interferences foreexample from mobile phones or magnetic fields. Only then start to begin with the weighing procedure when the display shows 0.0g (0.0000 oz). The product may be reset to 0.0g or 0.000 oz automatically due to strong electro interface.
- 4.- Before weight items, which are approximately less than 50 g (1.760 oz), the spoon must be switched on first. If the spoon is not switched on first, the display will automatically return to zero. On the other hand, if the weight exceeds 50 g (1.760 oz), the display will show "OUR2" and turn off automatically to remind you to remove the items. If the LCD shows "OUR2" after switching it on without any food, spices, etc. Placed in the spoon, this indicates that the sensor of the unit may be damaged due to overloading or rough handing.
- 5.- If the LCD shows " upon switching on, it indicates that the spoon is unstable and may not be placed horizontally.
- 6.- Should some food, spices etc. weigh more than 301 g (10.62 oz), the LCD will show "0-Ld", indicating that such spoon is over loaded.
- 7.- Low battery sign "unsr" shows on LCD when the battery power is low. The LCD will display "LO" when the power of the battery is too low to maintain operation. If this is the case, the product will switch off automatically after "LO" display. A CR2032 battery required to be replaced. Replace the batteries following the polarity sign. Please remember to dispose the used batteries correctly.
- 8.- The detachable scoop is dishwasher safe. But the handle is NOT dishwasher safe. Please wipe it with a damp cloth only. DO NOT subject the whole handle into water or clean it with corrosive liquid.
- 9.- DO NOT use in microwave or oven.
- 10.- The spoon scale should be always stored and used under room temperature (18~29°C / 65~82°F).

Cuchara medidora digital

La cuchara medidora calcula con exactitud el peso de cantidades pequeñas de especias, leche, aceite, harina o cualquier otro ingrediente. Esta cómoda cuchara cabe en cualquier cajón y se puede colgar o colocar en cualquier estantería de la cocina. Su nueva función de acumulación permite medir pesos hasta 3.000 g/105,8 oz.

Características:

- 1.- Recipiente desmontable con medidas similares a las de cucharilla de café y de cuchara sopera.
- 2.- Pantalla digital.
- 3.- Selección de medidas (gramos u onzas).
- 4.- Peso máximo a medir de 300 g/10,935 oz.
- 5.- Función total de peso hasta 3.000 g/105,8 oz.
- 6.- Resolución de 0,1 g / 0,005 oz.
- 7.- Función de congelación de pantalla.
- 8.- Apagado automático tras 1 minuto sin usar.

Cuillère avec Balance Digitale

Avec cette balance digitale en forme d'une cuillère vous pouvez peser petites quantités de lait, huile, épices, farine, etc., si vous avez besoin de cela. Cette balance très maniable est un aide utile pour toutes les cuisines. Vous pouvez mettre la cuillère dans chaque tiroir ou l'apprendre à chaque crochet. Le poids total maximal pouvant être additionné de cette façon est de 3000g / 105,8 oz.

Caractéristiques:

- 1.- Cuillère détachable avec marquage de cuillère à café et cuillère à soupe.
- 2.- Afficheur à cristaux liquides.
- 3.- Indication éligible en gramme (g) ou onza (oz).
- 4.- Poids max. 300 g / 10.935 oz.
- 5.- Poids accumulatif jusqu'à 3000 g / 105.8 oz.
- 6.- Unité de mesure minimale 0.1 g / 0.005 oz.
- 7.- Fonction pour tenir l'indication actuelle.
- 8.- S'éteint automatiquement après 1 minute.

Digitale Löffelwaage

Mit der digitalen Löffelwaage können Sie Gewürze, Milch, Öl, Mehl und ähnliche Zutaten in kleinen Mengen sehr präzise abwiegen. Diese sehr handliche Waage ist ein nützlicher Küchenhelfer für jeden Haushalt. Sie passt in jede Schublade oder kann an jedem Haken aufgehängt werden. Mit der neuen Summier-Funktion können jetzt Mengen bis 3000g / 105,8 oz abgewogen werden.

Eigenschaften:

- 1.- bnehmbarer Löffel mit Volumenangabe für Tee-und Esslöffel..
- 2.- Digitales LC-Display.
- 3.- Wählbare Anzeige gramm (g) und Unzen (oz).
- 4.- Messgewicht max. 300 g / 10.935 oz.
- 5.- Addiertes wiegen bis zu 3000 g / 105.8 oz.
- 6.- Kleinste wiegen bis zu 0.1 g / 0.005 oz.
- 7.- Haltefunktion, um die LCD Anzeige zu fixieren.
- 8.- Schaltet sich nach 1 Minute automatisch aus.

Digital spoon scale

The digital spoon scale provides a precise measuring result whenever you weigh a small quantity of spices, milk, oil, flour or other ingredients. This very handy scale fits into any drawer or can be hanged or placed on every kitchen rack. The new accumulation function now offers the possibility to measure weights up to 3000g / 105.8 oz.

Features:

- 1.- Detachable scoop with teaspoon and tablespoon scale.
- 2.- Digital LC-Display.
- 3.- Gramm (g) and ounce (oz) selectable.
- 4.- Measured Weight max. 300 g / 10.935 oz.
- 5.- Total weight function up to 3000 g / 105.8 oz.
- 6.- Measuring steps 0.1 g / 0.005 oz.
- 7.- Hold function to freeze the readings on the LCD.
- 8.- Powers off automatically after 1 minute.

Colher de pesar digital

A colher de pesar digital oferece-lhe um resultado de pesagem preciso para pequenas quantidades de especias, leite, óleo, farinha e outros ingredientes. Esta pequena e prática balança cabe em qualquer gaveta, ou pode ser pendurada em qualquer rack de cozinha. A nova função de acumulação de pesagens oferece a possibilidade de medir pesos até um total de 3000 gramas.

Caraterísticas:

- 1.- Concha da colher destacável, com escala para colher de chá e de sopa.
- 2.- Visor LCD.
- 3.- Seleção entre gramas (g) e onças (oz).
- 4.- Pesagem máxima: 300 g / 10.935 oz.
- 5.- Pesagem máxima acumulável: 3000 g / 105.8 oz.
- 6.- Passos de medição de 0.1 g / 0.005 oz.
- 7.- Função HOLD para fixar as leituras no LCD.
- 8.- Desliga-se automaticamente após 1 minuto.
